RatedYou Virtue (RYV)

Litepaper - Utility Token for the RatedYou Ecosystem

Project	RatedYou Virtue
Token Symbol	RYV
Network	Polygon
Token Standard	ERC-20 compatible
Maximum Supply	100,000,000 RYV
Website	ratedyou.org

Purpose. RYV is designed as a utility token intended to support rewards, incentives, and ecosystem features within RatedYou, a hospitality and travel-focused project.

1. Introduction

RatedYou Virtue (RYV) is a utility token created to support the RatedYou ecosystem. RatedYou is a hospitality and travel-focused platform designed to improve customer engagement, reward positive behavior, and create new forms of interaction between users and partner businesses.

2. Project Vision

The vision of RatedYou is to build a modern hospitality and travel ecosystem where reputation, engagement, and rewards are connected in a simple and transparent way. RYV is intended to help power this ecosystem by giving users and partner businesses access to utility-based incentives tied to platform activity.

3. What is RYV

RYV is a utility token deployed on the Polygon network. It is designed for low-cost transactions, accessibility, and future integration inside the RatedYou platform. RYV is not intended to represent equity, ownership, or shares in any company. Its purpose is to support platform-related functions and user benefits.

4. Token Utility

Within the RatedYou ecosystem, RYV may be used for customer rewards, incentive programs, engagement-based benefits, access to selected ecosystem features, promotional campaigns with partner businesses, and future loyalty or travel-related utilities. Token utility may evolve over time as the platform develops.

Potential utility areas include:

- customer rewards and incentive programs
- engagement-based benefits
- access to selected ecosystem features

- promotional campaigns with partner businesses
- future loyalty and travel-related utilities

5. Ecosystem Context

RatedYou is focused on hospitality, travel, customer engagement, and partner business interaction. The long-term goal is to connect digital identity, user incentives, and platform benefits in a way that creates value for both users and businesses. RYV is designed as one of the utility components that can support this ecosystem.

6. Network

Blockchain	Polygon
Token Standard	ERC-20 compatible
Token Symbol	RYV

7. Token Supply

Maximum total supply: **100,000,000 RYV**. The supply model is intended to support ecosystem growth, platform utility, and future reward mechanisms.

8. Roadmap

- token branding and public information update
- integration with RatedYou platform functions
- utility-based reward mechanisms
- expansion of hospitality and travel use cases
- additional ecosystem features for users and business partners

9. Risk Notice

RYV is a utility token created for ecosystem use. Digital assets involve technological, regulatory, and market-related risks. Users should independently evaluate the project and understand that utility features may evolve over time.

10. Disclaimer

This document is provided for informational purposes only and does not constitute financial advice, investment advice, legal advice, or an offer to sell securities. RYV is intended as a utility token for ecosystem-related functions within RatedYou.
